### ALLEGE HE TOOK WIFE TOO MANY

Young Arthur Abetnathy Charged in Philadelphia With

Bigamy.

HE HAS NOTHING TO SAY

Mother of Girl Said to Be His Second Wife Causes His

(Special to The Times-Dispatch.)

PHILADELPHIA, PA., June 13. Arthur Abernathy, son of the foounder of Rutherford College, N. C., besides being the author of 'Did Washington Aspire to be King?" is further accused of having married too many women. Five years ago, according to her marriage certificate, he was married to Miss Effe Cable, of East Liberty, Pa., who was then 15 years old. She was a very trusting, innecent sort of girl, having been reared in a convent, and when he proposed that they run over to Camden and be married, she consented, and the ceremony was performed by Rev. Dr. Cameron, pastor of a Baptist Church on Broadway.

Since that time, they have been living at No. 711 Spruce Street, having apartiments there, and their life, acording to the landlady, has been especially loving, and serene. In fact, it is said that she simply idolized him, while he called her his 'Daby."

Alleged Second Marriage.

Alleged Second Marriage.

Over a year ago, he met Miss Eva Ritter, who was employed at a Market Street department store, and at once began paying her assidious attention. Her mother heard, about ten months ago, that he was a married man, and further investigation proved this to be true. She finally, about six months ago, called upon Mrs. Abernathy, and told her how her husband was behaving, but it is said, that the little woman was so thoroughly in love with him, that she refused to believe it. Mrs. Ritter forbade her daughter having anything to do with Abernathy, but she did not obey.

Last week Mrs. Ritter heard that they had been married nearly a year ago—on the 12th of July—at Canden and proceeded to investigate. Miss Ritter was nincteen years old at that time. Her mother found a record in the Canden courthouse of the marriage of Eva Finar and Albert Hayes. The former was becown maiden name, and the latter the name of Abernathy's grandfather. His wife happens to be in Pittisburg visiting a married gister, and it is feared that the news will prostrate her.

Has Nothing to Say.

Has Nothing to Say.

Abernathy sers given a hearing before Bagistrate Eisenbrown this mosning, and, in accordance with instructions from his countries, and, in accordance with instructions from his countries, and R. K. Sontt, refused to say anything. Until extradition papers arrive for him from Camden, in will remain in the custody of Philadelphia authorities.

### COLLEGE ENDS FINE SESSION

ed forward to receive the long-coveted

Successful Year.

The programme last night, though short, was very interesting and pleasing. Stein's orchestra rendered appropriate selections furing the intervals between the features of the programme.

The exercises opened with prayer by Rev, James B. Taylor, after which President Boatwright arose to make his annual appropriates.

nnouncements.

Professor Boatwright said that/the college had enrolled 22 students, nearly all of whom had remained through the seation, and of which a very large proportion were successful in their examina-

With its adjunct schools—Richmond Academy and Riverview Academy—all of which are directed by the same board of irnstees, the college had enrolled 46 students. One of the most gratifying features of all this, said the president, is that there were 100 students enrolled from the city and its environs. Throughout the entire session there had not been the slightest disorder, and no student had been called before the faculty. Ratherhad they been animated by a spirit of seriousness and earnestness and of loyalty to the college. He was pleased also to announce that the new endowment fund had been raised and that \$100,000 had been added to the income endowment.

snnounce that the new endowment had been raised and that \$100,000 had been added to the income endowment.

He said, too, that there had been an agreement with the educational commission looking to the unification of the educational interests, especially in Rich, wond, which will make Richmond College the centre of the educational extension.

He closed his remarks with a few earnest words of hope and eccouragement for the institution and sreeted in an eloquent manner the fathers and mothers and friends who were present at the exercises. This part of the programme was followed by the delivery of the literary society medals, which was made, in the one case by Roy. J. E. Dix, pastor of the First Baptist Church, of Danville, and in the other by Professor W. Owan Carves, of the Mouthern Raptist Theological. Eculiary, Louisville, Ky.

Dr. Frissell Speaks.

Dr. Boatwright then introduced the speaker of the evening, Dr. H. B. Frissell, of the Hampton Normal Institute. Dr. Frissell's address was very earnest and thoughtful. He congratulated the college and faculty on their successful work, and through all his address rang a note

"Peruna will be our house medi-cine hereafter."

Catarrh of the stomach is also known in common parlance as dyspepsia, gastritis and indigestion. No medicine will be of any permanent benefit except it removes the catarrh.

A Great Tonic.

Mr. Austin M. Small, Astoria, Ore., writes: "During the hot weather of the past summer I lost my appetite. I tried Peruna, and found it pleasant to take, a splendfd appetizer and a great tonic."

of encouragement for the forward advance of educational interests in the

Dr. Frissell said in part:

I wish to thank the officers of this institution for the priviles, of staking to this audience, at this commencement. I consider it both an honor and a privilege. The educational institutions of this country are fast becoming the preat centers of thought and influence. Such they ought to be. Through the men who support them and their officers and trustees they are coming to be the controlling power in the land. In one of his admirable addresses, President Ajderman, of the University of Virginia, remarked that the center of gravity was passing from the courthouse to the schoolhouse from the courthouse to the schoolhouse While this is true to a certain extent in all parts of our country, I celleve t is especially true in the South. We are living in the midst of a great educational revival. At the last session of our Staty Legislature the number of bills having the do with education far exceeded those upon any other subject. Governors, Congressmen, clergypinen, business men, are not interested in the training of the young. Educational gatherings are more largely attended than political railies. The State is feeling that no other subject compares in importance with that of the proper education of its youth. Men of great wealth are giving as never before to the support of college, and other institutions of learning.

Business men are devoting much time to a consideration of how their wealth can be applied so as to acomplish the greatest good. Experts are being employed to discover what are the strate-

to realize the tremendous importance

DR. GARNETT RYLAND.

of education. We have only just begun to give it the place in the public thought to which it is entitled.

New Idea in the World.

New Idea in the World.

The education of the common man is a new idea in the world. In the pasts an aristocratic society helived in the ignorance of the imany, and the education of the flow are just arousing to a knowledge of the great truth that a democracy is impossible without education of the flow and in the world. Englishmen are beginning to resent helidea of oducational bill. Englishmen are beginning to resent helidea of oducational bill. Englishmen are beginning to resent helidea of oducational bill. Englishmen are beginning to resent helidea of oducational bill. Englishmen are beginning to resent helidea of oducational bill. Englishmen are beginning to resent helidea of oducational work.

Japan has made a demonstration such as the world is not likely soon to forget of the deducational work.

Japan has made a demonstration such as the world is not likely soon to forget of the deducational work.

Japan has made a demonstration such as the world is not likely soon to forget of the deducational work.

Japan has made a demonstration such as the world is not likely soon to forget of the deducational work.

Japan has made a demonstration such as the world is not likely soon to forget of the advantages that comes through the training of a people, and Russiah as made clear the truth which Dr. Curry so foroibly uttered, that "ignorance common is a cure for nothing." Men are common and the precise of the common and the precise of the graduation grade to the description of the graduation grade to control, and there there domocracy exists there is greater wealth and greater comfort, and there the working man doos more efficient work and read the work ing man doos more efficient work and excellent of the graduation of the graduation of the graduation of the graduation in the graduation of the graduation o

on the life and work of Dr. J. L. M. Curry, once a professor in Richmond College and for many years, even until his death, president of the board of

College and for many years, even until his death, president of the board of trustees.

Of Dr. Curry he said, in part:
"Perhaps no one man did so much as he to bring together men of different sections. Nr man se helped Norther? and Southern men to understand one another's point of view. 'Blessed' said the great Master, 'are the peacemakers,' Such was the blessedness of Dr. Culls, There have been those in the past, and there are those to-day whose chief delight is found in undervaluing those who differ from them, who refolee in creating bitterness between men of different races and sections and conditions. Such men are public enemies. Love is the greatest thing in the world, and, because Dr. Curry saw the good in others and helped others to do the same, he is blessed. The work of the Paubody Board, the Slater Board, and the Southern and General Education Boards, in which the North and South have labored together for the public good, would hardly have been possible except for the broad sympathy of this one man.

Manual Training for All.

Manual Training for All.

He paid a beauliful tribute to Captain Vawier, as follows:

"There has passed from our midst during the past year one whom we all loved and horored, a brave soldier of the Confederacy, Captain C. B. Vawier, who stood at the forefront in all this anovement, in Albemane gound be so trained as to make them good, intelligent elizens, at the same time that their earning capacity was tripled and quadrupled. At one of the Capon Springs Conferences he aroused the audience to enthusiasm by showing what was done at the Miller School, concluding with these words: 'God grant that the inspiration of this day may be for the uplifting of both races in our Southland along the line of what is most needed—systematic, intelligent, industrial training." At the timof his death he was working out a system of instruction for our common schools in Virginia that should combine the training of the head, the hand and

Future of the College.

Future of the College.
Closing his admirable address, Dr. Frissell said:
"But I have wearied you with my many words. Before coming here I asked an excellent friend of this institution what I should say when I spoke to you today. 'You will naturally dwell,' he said,' upon the ways in which Virginia has in the past influenced the thought of the country and the world, but tell them that to-day that Virginia needs to understand economics.' What he meant to imply, as I understand him, was that the educational thought of this great institution should be given largely to the working out of the practical problems of this every-day world. 'I am come,' said the great Master, 'that they might have light, and that they might have it more abundantly.' That, as I understand it, is the the object of this institution to bring life to men, to all classes of o bring life to men, to all classes of

It, is the the object of this institution to bring life to men, to all classes of men.

Out from here will go in the future, as in the past, the influences that will help to mould and improve our national and Sinte legislatures; that shall influence our pulpit and press; men who shall speak and write life-giving words, physicians who shall relieve the suffering and save life. From this city set on a bill there shall go forth light that shall help those of us who are struggling with the problem of the negro, that shall make our common schools the centers of light and beauty and truth, that shall help the farmer to make two blades of grass grow where one grew before. "Thy kingdom come," we pray, and while the other world is no less real than it was, we do think more of making God's kingdom come," we pray, and while the other world is no less real than it was, we do think more of making God's kingdom come here in better schools, better home and better farms. In the helping forward of the coming of that kingdom in the world, in the giving of life and light to this Commonwealth and this great nation, may Richmond College be richly blessed."

Dr. Frissell was heard with the closest

blessed."
Dr. Frissell was heard with the closest attention, and his earnest and thougatful words could not full to arouse the deepest interest of all present. He was loudly applauded, and received many congratulations afterwards.

Honorary Degrees.

Professor Boatwright, in place of the president of the Board of Trustees, made the announcement of the board. President Boatwright said that the honorary degree of D. D. was conferred on Rev. Mr. Savage, of Churchland, and Rev. George M. McDaniel, of Richmond; Doctor of Laws was conferred on Rev. James Relsoa, of Richmond. Garnett Ryland, Ph. D., he said, was elected

professor of chemistry in place of Dr. J. Rufus Hunter, who resigned in August last.

Professor Box wright, at the close of the exercises, invited the audience, sudents and alumni to the recoption tendered them in the library, where everybody spent a very pleasant evening.

#### JUDGE GREGORY IS REMEMBERED

Former Law Students Present Him With Loving Cup on His Retirement.

One of the most beautiful incidents in connection with the closing exercises of Richmond College took place in the chanel yesterday afternoon, when the former law students of Judge Roger Gregory presented him with a handsome loving cupupon the occasion of his retirement as professor or law of the institution. About fifty of Judge Gregory's old students, including the class of 1906, were present, as well as many members of the faculty and board of visitors.

Hon, Henry R. Pollard spoke for the law committee of the college; Mr. Earl Riley, of this city, for the class of 1903, and Postmaster Royal E. Cabell for the class of 1903.

The latter presented the beautiful token in a very happy speech, and Judge Gregory responded in a fitting manner and ama great applause.

Mr. Cabell's Speech. yesterday afternoon, when the former law

Mr. Cabell's Speech. Mr. Cabelt's closing words, which pro-

### White Goods Bargains--Just for Thursday!

Items of the strongest sort shall find ready buyers all day long to-day. Don't miss this event.

Handkerchief Linen, the so much used material for embroidered dresses, shirt-waists and the new Peter Pan waists, sheer and very fine, a 75c value, at 50c yard.

Fine Check and Striped Dimities, a regular 12 1-2c value; only about 10 pieces, to go at 9c yard.

Eulogy Out of Place.

admiration of your fellow men.

A Fitting Response.

The response of Judge Gregory was highly appropriate, and he was often interrupted by long continued applause. Now and then he would inject a bit of humor, which was highly enjoyable. He said he owed much to the board of trustees. They had not only made him professor of law, but shortly thereafter they conferred upon him the degree of LL. D.

Judge Gregory paid a high tribute to his assistants, Professors John B, Minor, E, M. Long and W. S. McNeill. He said

and he had no trouble in choosing text-books when he took the chair.

An Easy Choice.

An Easy Choice.

When allowed to choose one assistant, he turned as readily to the son of his former teacher, and he had measured up in ayary way to his dutes.

When another assistant was to be chosen, he turned with equal ease and readiness to Professor Long, for whose work he had the highest praise.

He complimented the personnel of all his classes, and said he had looked upon his students rather as sons than otherwise.

ise. He thanked them cordially for

The Inscription.

The cup is a very handsome sliver one with gold lining, and bears the following appropriate inscription:

'Hon. Roger Gregory, LL. D.,
Professor of Law

Richmond College He taught the law and the reason thereof.

June 18th, 1906.

upon
The occasion of his
retirement from the Faculty.

TRUSTEES' MEETING.

Strong Financial Statement Made by Treasurer.

of Richmond College closed yesterday afternoon. The sessions of the body were finely attended and were characterized by very close attention to business. Rev. W. E. Hatcher, D. D., was re-elected president and Hon. J. T. Ellyson vice-president. Dr. C. H. Ryland, the secretary and treasurer, was again unanimously chosen for those offices. The treasurer's annual report showed an increase of invested endowment of \$25,000, making a total of interest-bearing funds of \$372,000.

The president of the college made an elaborate report and his recommendations were generally cordially adopted. Among these were the enlargement of several of the schools and provision for the teaching of the Schools and provision for the teaching of the Spanish language. Professor Siewart, who has been the assistant in modern languages, will be in charge of this chair.

Rev. R. J. Willingham, D. D., was made trustee in the place of Rev. J. M. finely attended and were characterized

Mercer, D. D., who has moved to North Carolina.

The education commission reported to the board that no better offer had come to their for the location of the Woman's College than thut made by Richmond College, than thut made by Richmond College, and bids were closed April 1st, last.

The Law Committee made report of the employment as professors: Hon. A. J. Montague and Messrs, E. M. Long, W. S. McNell and C. B. Garnett as the law faculty for 1905-07.

Dr. Garnett Ryland was elected professor of chemistry to succeed Prof. J. R. Hunter, Dr. Ryland was educated at McGuire's School and at Richmond College, taking a full course in each school. Along with his M. A. in the college he won the best writer's medal, the elecution and gymnasium medals and the prize in German. After leaving college he taught three years and entered Johns Hopkins University. The first year he took chemistry as his major and mathematics and physics as his minors. During the second and third years he devoted himself entirely to chemistry under Professor Ramson and won the Ph. D. degree. After leaving Hopkins he taught in the University of Maine three years and the last year was at the head of the department of chemistry inder Professor Ramson and won the Ph. D. degree. After leaving Hopkins he taught in the University of Maine three years and the last year was at the head of the department of chemistry incorrespondently taught chemistry in Coverse College, South Carolina, and physics in Georgetown College, Ky., where he has made a fine reputation. Dr. Ryland did not apply for the professorship in Richmond College, but gas sought by the college committee for the place on the recommendation of Dr. Ramson and others, and nominated by the committee to the board. Dr. Ryland is greatly in love with his profession and brings experience, aptness to teach and enthusiasm into his work. The faculty of the college endorse the election of Dr. Ryland heartily and will give him an enthusiastic welcome late their ranks.

#### HIGH SCHOOL FINALS.

Interesting Exercises at Academy of Music To-night.

emy of Music To-night,

The Richmond High School will hold its
thirty-second annual commencement at
the Academy of Music to-night at \$15
o'clock. A very interesting programme
has been arranged, consisting of songs,
recitations and addresses, followed by
the delivery of diplormas and scholarships.
The address of the occasion will be delivered by Frank T. McFaden. Major
James H. Capers will deliver the diplomas and Rev. George W. McDaniel, D.
D., the medals. Miss Lee Cecil Rineberg
will read an essay entitled "Some Contrasts Between the French and Americas
Revolutions,"

The Academy will undoubtedly be
crowded with the many friends and admirers of the school.

#### WERE PLAYING "SKIN,"

Justice John Reaps Harvest from

Colored Sporting Element. Twenty-six negroes were playing "skin" in a house in Rocketts early Tuesday morning, when Patroimen Keliam, Bryant and Sherry dove into the joint, Seven—rather a lucky number for the "skin" artists—secaped through window, doors and transoms. They got away from the officers, who had their hands full in attending to nineteen of the fancy samblers.

m attending gamblers.

The First Police Station cells were crowded until the magistrates could get husy with the ball bonds and release a bunch of the black specks upon human-

terday. Justice Crutchfield never forgets an act of discourtesy shown him.

BAY SHORE CASE.

Judge Waddill Orders the Fen-tress Stock Turned Over.

tress Stock Turned Over.

(Special to The Times-Dispatch.)

NORFOLK, VA., June 13.—In the United States court to-day, in the Bay Shore Rallroad case, Judge Waddill ordered the receivers to turn over to E. B' imith & Company, the bondholders of Philadelphia, £3,000 worth of stock w ich R. B. Fentress claimed to have purchased, but who alleged that the stock had never been turned over to him, and which he claimed had been held by the receivers.

Until the matter is finally adjudicated, the stock will be deposited in a local bank, together with all of the bonds.
